1. Monthly subscription

Add subscription										
Member Choose an item.					**Date** Date					

Year	Month	Canteen amount	Amount paid	Amount	Outstanding	Welfare amount	Amount paid	Amount	outstanding	Total outstanding
2022	July	50	10	Amount	40	50	20	Amount	30	90
2022	June	50	40	Amount	10	50	20	Amount	30	40
2022	August	60	60	Amount	0	100	50	Amount	50	50

+Add new row

- Monthly subscription add form setup same like did on building rent management form based on two condition like we discussed early.

- Condition-I :- if not found any transaction of canteen and welfare on subscription table then load first row based on joined month and year (this joined month and year take from table named subscription_amount_monthly_register)

- Condition II: - if found any records based on canteen and welfare without finish payment then load all that month and year records.

- Subscription canteen and welfare amount should be taken from table named subscription_amount_monthly_register. in this table the canteen and welfare amount is registered based on month and year, so when filter by building room number,or when click on +add new row button the canteen and welfare amount should be display based on month and year.

- Validate amount should not be greater than outstanding amount for each canteen and welfare

2. Yearly subscription

Year	Canteen amount	Amount paid	Amount	Outstanding	Welfare amount	Amount paid	Amount	outstanding	Total outstanding
2022	50	10	[Amount]	40	50	20	[Amount]	30	90
2023	50	40	[Amount]	10	50	20	[Amount]	30	40

[+Add new row]

- Yearly subscription add form setup same like did on building rent management form based on two condition like we discussed early. But here consider only year, so when click on +Add new row button increment year only based on that

- Condition-I :- if not found any transaction of canteen and welfare on subscription table then load first row based on joined year (this joined year take from table named subscription_amount_yearly_register)

- Condition II: - if found any records based on canteen and welfare without finish payment then load all that year records.

- Subscription canteen and welfare amount should be taken from table named subscription_amount_yearly_register. in this table the canteen and welfare amount is registered based on year, so when filter by building room number, or when click on +add new row button the canteen and welfare amount should be display based on year

- Validate amount should not be greater than outstanding amount for each canteen and welfare
